

Mats

Comfort Plus™ Mats

Anti-Fatigue Solutions for
Intermediate to Prolonged Standing

Milliken™

Comfort Underfoot

Employees stand up for you all day in areas like checkout stations, service counters, assembly lines, or behind serving bars. Support your team with Comfort Anti-fatigue mats. The unique cushion ergonomics of these mats provides greater underfoot comfort, keeping employees motivated and full of energy. Lower profile makes it ideal for employees that have to walk on and off the mats during their work period.

The patented nitrile rubber construction resists water, oil, and solvents while reducing environmental noise. Tough enough to withstand an industrial laundry system and built to handle on-the-spot cleaning with pressure hoses. Of course, Comfort Anti-fatigue mats meet all ADA height guidelines.

- ¾" thick, providing greater support for those applications that require even more time spent standing in place
- Anti-fatigue mat reduces strains, pains, and claims caused by prolonged standing
- Anti-microbial properties help it prevent mold, mildew and bacterial growth
- Closed cell construction helps eliminate absorption of liquids and fluids
- Light-weight and easy to clean
- Ideal for roller traffic with designed beveled edges and non-slip backing

Product information	Comfort Plus Mats
